SUBJECT NO 392

A building for Model H school at Bangalore

M M G M khri C tral
h m d A so t B g

Summary of discussion —All attempts to secure a suitable rented building for the Model Anglo Hindustani School at Bangalore having failed so far it is requested that a decent building may be caused to be constructed in the maidan between the Kalasapalya Police Station and the Doddanna Hall which seems to be the most convenient and central place now available for the purpose Until such a *pukka* building on suitable pattern is erected there is no chance of housing the model school in a healthy building

over

Letter No 436 dated 18th [illegible] 1911 from the Principal Central College Bangalore to the Inspector General of Education in Mysore

---

I have the honour to forward for favourable consideration the enclosed letters from Mr B Venkatesachar M A and Mr C R Narayana Rao M A L T

Copy

Inspector-General

MR

Letter dated Nil from Mr B Venkatesachar to the Inspector General of Education in Mysore

---

I beg leave to submit the following representation of my claims for promotion for your kind consideration and that of the Government as I understand that proposals in regard to the grading of the existing members of the educational establishments will be shortly submitted to Government

2 The main facts of my service in the Educational Department are summarised as follows -

In 1900 His Highness' Government were pleased to appoint me in the Educational Service I have put in twelve years of service in the Central College During the first two years I was in independent charge of the Physics Department and the results in the B A Degree Examination of this period have been referred to in appreciative terms a student of the Central College having stood first in the pass list and having carried off the Arni Gold Medal both these years For the past ten years I have been teaching both the F A or Intermediate and the B A classes and during the absence of the Professor of Physics on leave I was placed in charge of the Senior B A class At present I am doing the Physics teaching of B A students who have taken up

Chemistry

Chemistry as their principal subject

3 Though I have been doing my very best in my own humble way and I believe I have given satisfaction to my superiors in the discharge of my duties I have been denied the satisfaction that my prospects have suitably progressed in the service as the following brief account will show -

(a) When I was first permanently appointed to the educational service I was led to expect by the then responsible authorities of Government a far more prosperous career than what has fallen to my lot Perhaps the papers in the Secretariat will bear me out

(b) During these twelve years I have had ~~two~~ supersessions which in my humble judgement appear to be quite undeserved -
I refer to the cases of Mr M Hiriyannaiya and Mr B Srikantaiya whose work is by no means superior to mine and in regard to the second it is noteworthy that during the two years of his B A course he was my pupil

(c) On the strength of the Government Order of March 1908 which provided the B Grade Rs 200-25-300 for Assistant Professors essrs B Venkata-Naranappa and B M Srikantaiya were promoted to that grade in 1910 But similar kindness was not shown to me though my qualifications and work entitled me to equal treatment under the order of Government referred to

(d) In 1911 I was recommended to be placed in the

old

Letter dated 29th January 1914 from Mr C R Narayana Rao L A L T Central College to the Inspector General of Education in Mysore

---

In connection with the recently sanctioned revised scales of pay for the educational officers I have the honour to request you to be so good as to forward with your kind support this humble representation of mine for the gracious consideration of Government

2 In the first place I beg leave to state the chief points peculiar to my case

i I am in independent charge of a separate subject (Zoology for the B A Degree Examination) which the Government have been pleased to entrust me with

ii In accordance with the above my responsibility has been no less than for instance that of the Geology Professor and I venture to think that there is hardly any difference in the relative importance of the principal and subsidiary studies

iii I have had to start and complete the organisation of my laboratory and museum like the other Professors of the College In view of these facts I beg leave to submit that the position due to me is not to be settled on the basis of my present designation of Assistant Professor

3 In accordance with the Government Proceedings dated 5th

March 1897

and 30th

March 1908 I reasonably expected to be placed in B 2 grade (Rs 200-25-300) which was provided therein along with Messrs Venkatararanappa (Central College) and B I Srikantiah (Mysore Maharaja's College) The latter I may be permitted to state was below me in the C 3 grade (Vide Civil List for October 1909) My subsequent representation on the subject (19th July 1911) praying for similar treatment was I have reasons to believe favourably viewed by Government at first but deferred pending reorganisation of scales I have since suffered another supersession by reason of Mr B Vasudeva Rao (Head Master Shimoga High School) having been placed in a special grade of Rs 210

4 I have ventured to narrate these facts with a view to bring to the kind notice of Government that the peculiar circumstances mentioned in para 2 the deferred promotion and supersessions constitute an adequate case for special treatment

5 In as much as Government have been pleased to lay down in their Proceedings dated 30th December 1913 that they 'reserve to themselves the power of making appointments to any of the higher grade in cases of exceptional merit (para 6) and that 'the scale under each of the five main divisions will be worked as a provincial scale (para 8) I respectfully and humbly pray that Government may be graciously pleased to place me in the

Circle

Circle Inspector's grade Rs 400-20-500

Submitted to His Highness

66 Certain members of the Representative Assembly who are also members of the Municipal Council of Mysore represented in the Representative Assembly of 1913 that 16 buildings for primary schools in the different mohallas of the Mysore City may be constructed half the cost being recovered from Municipal funds in 20 annual instalments

2 The Inspector General of Education who was consulted in the matter reports that the Municipal Council urge that as the Municipal allotment under Public Instruction has been raised from Rs 10 000 to Rs 15 000 - they are not able to give any further contribution and recommends that the sum of Rs 30 000 required for constructing 9 school buildings in the different mohallas of the city may be paid from Government in annual instalments of Rs 6 000 the amount being met from the allotment of 2 lakhs of rupees ordered in Government Order No 406-8/Edn 208-13 dated the 23rd September 1914

3 While it is very necessary that decent school buildings should be constructed in different parts of the city it would lead to a bad precedent to exempt the Municipal Council from paying any part of the cost of such buildings The Municipal Council may be informed that if they are prepared to contribute one-fourth of the cost, the expenditure required viz Rs 30 000 will be distributed over two years three-fourths being given from Government funds out of the 2 lakhs grant
